

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

PERMIT GRANTED TO FARMERS' EXCHANGE

Permit to do business in Texas has been granted the Farmers' Exchange, with headquarters at Houston. D. E. Lindsay, president of the organization, announces. The exchange is capitalized for \$25,000, all of which is owned by the members of the Texas Farmers Union. Lindsay says that this will soon be increased to \$100,000.

The purpose of the exchange is to store, buy and sell cotton for Texas growers. By storage it is hoped to secure higher prices.

One farmer has written the exchange he has secured \$600 more for his cotton through the organization. An other says he received \$13 more per bale through the grading system of the exchange.

Senator Kellogg says the railroad administration has been grossly extravagant, and, further, that it has built up a great central body which "benumbs the incentive and enterprise of very railroad organization." Both charges are probably true. The charge that the central organization has gathered to itself so much authority and power as "to benumb the incentive and enterprise" of every subordinate organization may be the more readily believed because that consequence is inevitable. It is a physiological fact, we believe that in an obese body the head robs the extremities of their due of its blood, and thus brings on a numbness such as Senator Kellogg says afflicts all those who are not high in the hierarchy of the Railroad Administration. But whether this law of natural organism governs an artificial body, such as the Railroad Administration, or not, there are limits beyond which size and centralization of authority can be attained without causing a condition such as that Senator declares to exist. Undoubtedly we have had too many railroad corporations and too much diffusion of the regular power over them. But we should come on greater evils by going to the other extreme. This fact is one of the fundamental objections to Governmental ownership. Advocates of that policy cite the experience of other countries. Even if their experience had been of a kind to recommend Governmental ownership to us, the fact that our country is so much larger and our railroad mileage so much greater estop us from concluding that it is wise for us to follow their example.—Dallas News.

SHORTAGE OF PAPER MAY BE INVESTIGATED

Representative Ricketts (Republican) of Ohio introduced a resolution proposing investigation of "every thing touching the high cost of print paper to publishers."

Specifically the possibility of a monopoly in the print paper industry would be investigated and the reason for the apparent discrimination between the metropolitan and small city papers in the distribution of paper.

ARE YOU GOING TO BUY A PHONOGRAPH?

Because of a shortage in the supply of high grade machines—Victor, Columbia and Edison—we are not able to supply the demand for these machines. Some few are so insistent that they have a machine for Christmas that they are ordering any kind of a machine that is purported to be a talking machine.

Now, with a desire only that you get the value for your money, we are urging that you wait until you can buy a machine that will stand the test of time and service, and that will satisfy you when the new is worn off and the supreme test of time is applied to the machine.

When you buy a phonograph you should buy as you would in buying a piano, a machine for a lifetime of service.

No Relief in Sight

The national politicians have fallen down so completely in correcting the profiteering evils that we might as well give up the idea and strike out for ourselves. So long as there is nothing in the criminal code to serve as a scare crow and the grand juries have flattened out without accomplishing anything the only redress left is to employ a lot of shyster lawyers and bring civil action instead of criminal prosecution against the sharks who charge exorbitant prices. In this way dealers would be compelled to produce their books and inventories showing wholesale costs as well as selling prices of merchandise handled by them. In criminal action the defendant cannot be compelled to provide such evidence, due to the constitutional provision that no accused person is required to hear testimony against himself. This has been the chief stumbling block to successful prosecution of the profiteers who are squeezing the tax out of us. Only last week a Denver dry goods company was caught in the overt act of selling a pair of shoes for \$18 that cost only \$6.—Field and Farm.

Gompers Gets Cautious

Mr. Gompers says the trouble with the industrial conference recently deceased was too many lawyers. His corporations had their legal sleuths advising them. You could hardly expect lawyers that live on strife to work very hard for peace.

That name Peter the Great could have given Gompers a useful suggestion. When he visited the London law court, saw all the heads with white wigs, and was told that they were lawyers, he said, "Why so many lawyers to create trouble? There are only two in Russia and as soon as I get home I am going to hang one of them."

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is cancer. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address: F. J. Enjoy Cold Days in a Maxwell

JUMP into a Maxwell, bundle up, and in a second or two you're off.

More miles per gallon
More miles per tire

No stone cold engine, no getting out to crank.

A few revolutions of the engine and it is running with midsummer action.

You get over ground quickly, get to your destination faster than in a bigger car.

This cold weather efficiency in a Maxwell is traceable to the Hot Spot and Ram's-horn, which warm up, "break up" gas into a fine vapor.

The moment this reaches the cylinders it is converted into full power and you avoid the troublesome experience of "trying to get a car warmed up on a cold day."

This high efficiency and the fine quality of steels used in its construction have made for Maxwell friends by the thousands—to date more than 300,000 of them. 100,000 Maxwells are being built this year; which will supply but 60% of the demand.

Price \$985 f. o. b. Detroit.
